## S.P. TRAIN IN A LANE OF FLAMES

Rushed Through Flames on Either Side of Track for Half Mile

## FOREST FIRES IN SANTA CRUZ RANGE SPREADING

Burns Timber and Threatens Summer Resorts—Trains Are Delayed

SANTA CRUZ, Oct. 18.—A hundred section men left here today to fight three forest fires raging near Tampico Creek, Zayante station, and the Thorn place. The fires are said to be traveling in the direction of Scott's valley and Mount Hermosa.

## FIRE CROSS TRACKS AND MENACE SUMMER RESORTS

SAN JOSE, Oct. 18.—The forest fire which have been raging for a week in the Santa Cruz mountains have crossed the Southern Pacific tracks near Zayante and are burning uncontrolled through one of the most valuable tracts of second growth timber on this side of the mountain.

Many summer resorts are endangered and all Southern Pacific trains between here and Santa Cruz have been delayed. Among the towns in the path of the flames are Lexington, Wrights, Eva, and Alma, containing expensive summer homes of wealthy people.

Fire at Bear Creek continued unabated but that at Middleton's Mill is under control. No casualties have been reported so far.

## TWO FIRES JOINED FORCES; TRAIN SPED THROUGH FLAMES

The fire which has been burning for days in the Bear Creek, crossed the ridge yesterday and joined another fire which has been burning in the Zayante, and the combined conflagration almost instantly swept the whole length of the Zayante Canyon, spreading over the ridges in all directions. It crossed the railway track in many places.

Train No. 87 last evening rushed through flames for half a mile on both sides of the track. A force of about 300 men have been sent into that section. All telephone lines are down beyond the Montezuma school on the Bear Creek summit.

The Getchel home on the other side of the Bear Creek ridge was saved by the heroic work of a band of thirty boys from the Montezuma school.

### THE WEATHER

Fair and pleasant weather tonight and Sunday; light north wind.

East Liberty, Pa., Business Men's Convention Starts to Nov. 1  
PITTSBURGH, Pa., Oct. 22.—Under the auspices of the East Liberty Business Men's Association, the East Liberty Exposition was opened today in Motor square Garden. The exposition will continue until November 1.

Real Babies to Be Used in Chicago Schools  
CHICAGO, Oct. 18.—The care of infants will be taught in fourteen of Chicago's schools, beginning next week. Real babies will be used in the demonstrations. The classes will be in charge of nurses from the health department.

Man Pleaded Unwritten Law in Panama—Gets Pardon  
PANAMA, Oct. 18.—Governor Metcalf has issued a pardon to Frank Houston, an American, who killed Harry Stearns last February and pleaded the "unwritten law" in defense. Houston is at liberty, but will be deported.

Wilson and Cabinet Discuss Budget For 1914  
WASHINGTON, Oct. 18.—President Wilson within the last few days conferred with the members of his cabinet on the estimates of expenses in each department for the coming year. A general effort toward economy is being made.

Federal Attorney For Oklahoma Removed  
WASHINGTON, Oct. 18.—Homer N. Boardman, United States attorney for the western district of Oklahoma, has been removed. The nature of the charges against him was not announced.

## LINDSAYS HUERTA MAY RESIGN—INTERVENE SAY DIPLOMATS

WASHINGTON, Oct. 18.—That the indications are that Provisional President Huerta of Mexico is about to retire was the tenor of a message received by the state department from John Lind, President Wilson's emissary, now at Vera Cruz.

Charge d'Affaires O'Shaughnessy of the American legation at Mexico City supplemented the Lind message with a telegram saying that there is a strong sentiment among the foreign diplomats in favor of intervention. President Wilson, however, said he would be disinclined to such a step, believing that Huerta's retirement would mean a fair election, and that all information received from both official and unofficial sources led him to believe Huerta to be on the point of surrendering his power.

Believes Huerta Will Resign  
The Mexican Embassy here was inclined to credit the reports of Huerta's intended resignation as provisional president.

Felix Diaz Reaches Havana  
HAVANA, Oct. 18.—General Felix Diaz arrived here today en route to Mexico. He said he would disregard his friends' warning that his life is in danger there. He refused, however, to travel in a Mexican gunboat sent for him, and will sail by steamer.

## ENGLAND WILL NOT WITHDRAW HER RECOGNITION

The British foreign office made known its position regarding the Mexican situation today. England's position is that intervention is not deemed advisable or expedient and that England, while sympathizing with the United States, cannot withdraw its recognition of Huerta as the provisional head of Mexico because of the greatness of British interests in Mexico.

## REPORTED HUERTA SENT RESIGNATION YESTERDAY

MEXICO CITY, Oct. 18.—The statement from high authority is made that President Huerta's resignation was placed before the Cabinet yesterday. It was discussed at length, but was not accepted because a review of the possibilities for the position developed no man with the necessary qualifications to handle the present difficult situation.

## PIEDRAS NEGRAS MAY BE EVACUATED BY FEDERALS

PIEDRAS NEGRAS, Mexico, Oct. 18.—The Mexican federal army, which recently captured Piedras Negras, the Constitutional provisional capital, has been notified to prepare for immediate evacuation of that city in case diplomatic relations with the United States are suspended, according to reports here today. The reason for this movement was not learned.

## HARRY LANE WILSON GIVES HIS OPINION

SPOKANE, Oct. 18.—The government of Provisional President Huerta of Mexico is just as legal as the government of Roosevelt when he succeeded McKinley after the latter's assassination," is the opinion of Henry Lane Wilson, former American Ambassador to Mexico. Wilson declared if the American government did not get behind the Huerta government, chaos will come and America will have to take Mexico. He said: "We would have to supervise the election and then the new president would be labeled a grunge president."

## OFFERS GAS AT TWO CARS FROM EIGHTY CENTS

## 1,000 CARS ENTERED

Bain Agrees to Furnish it to Fullerton at that Rate  
Fullerton at that Rate by Jan. 1.

Here Are to Go on Race to Phoenix  
A Cadillac and a Buick from Fullerton to Phoenix

## IF FULLERTON, WHY NOT SANTA ANA, TOO?

Fullerton's Move Toward Municipal Management Brings Results

If Fullerton can get natural gas delivered at eighty cents per 1000 cubic feet, why can't Santa Ana and Orange?

This question was asked today when it was reported that Fullerton is assured of natural gas whether that city puts in its own distributing plant or not.

President F. R. Bain of the Southern Counties Gas Company has agreed to supply natural gas to Fullerton at 80 cents per 1000 cubic feet. He said his company could deliver by January 1. The city trustees agreed, provided Mr. Bain would make the agreement in writing, otherwise an election will be called to vote on \$50,000 bonds for the plant.

Fullerton has an option on a supply of natural gas from the Birch Oil Company wells, and was confident that it could buy the gas and distribute it for seventy-five cents per 1000 cubic feet. At present Fullerton's rate for gas supplied from the Santa Ana plant is \$1.25.

Concerning the situation the Fullerton News has the following: "Our council is guarding the city's interests, and there is no fear but what they will protect the taxpayers. A bird in the hand is worth two in the bush and the council does not intend to let go of a certainty for an uncertainty."

If the Southern Counties Gas Company will furnish this city with gas at the per 1000, and give a written guarantee to do so for ten years, there is no doubt but that the council will meet them half way, but if this company will not come up to these conditions, we believe the council should go ahead and see that the city gets cheaper gas.

At present we have no guarantee for a cheaper rate. In conversation with Mr. R. S. Cokely, who has spent years in the oil and gas fields, and whom we believe to be the best posted man in this city concerning this question, said in part Thursday morning: "I had a talk with one of the officials of the Birch Oil Company Wednesday evening in which he said that take no chances on losing out on this representative of the Southern most important question, and make it Counties Gas Company had to be self-sustaining, be it 50c or \$1 per him to try to get an option on their 1000. There is no question but that gas supply. He was told that Fullerton would be a great deal cheaper than Santa Ana. At this the gas is today, because there will be no company's representative offered the salaries for corporation officers and oil company more for their gas than Fullerton's."

## State to Write Insurance On January 1 '14

SACRAMENTO, Oct. 18.—Insurance firms operating in California will be dealt a body blow January 1, according to every indication today, as the result of the operation of the state compensation insurance fund, effective on that date. The state of California will enter the insurance business in actual competition with the regularly organized insurance companies.

## MRS. PANKHURST NOT ALLOWED TO LAND

Arriving on La Provence, Taken to Ellis Island Where She is Detained

## CAN APPEAL RULING OF IMMIGRATION OFFICERS

Says "Death or the Vote" is Motto of Militants Who Fight Premier Asquith

NEW YORK, Oct. 18.—Immigration officials were thrown in a panic this afternoon by the announcement that Mrs. Pankhurst, the English militant, detained on Ellis Island, that she would go on a hunger strike, after she had been ordered deported as an "undesirable." Then Mrs. Pankhurst changed her mind and the officials breathed easier.

Responding to a telephone message to Washington the immigration officials informed Attorney Reeves, representing Mrs. Pankhurst, that she will be released tomorrow on bonds. After the board of inquiry had finished interrogating her, Mrs. Pankhurst said: "If what I have done in the fight for English women is called moral turpitude then your revolutionary warriors and men who spilled tea in Boston harbor were guilty of the same crime."

## IMMIGRATION OFFICIALS DETAIN MRS. PANKHURST

NEW YORK, Oct. 18.—Mrs. Emmeline Pankhurst was ordered excluded from America by the immigration authorities today. She will be given a chance to appeal from their decision.

Upon her arrival on the French liner La Provence, Mrs. Pankhurst was not allowed to land like other passengers. She was taken to Ellis Island and there questioned. The immigration officials asked whether the English suffragette was ever arrested for larceny, felony or any offense involving moral turpitude. She replied: "Never. The only charge ever made against me was conspiracy."

Later Mrs. Pankhurst said to the reporters: "I am not here to teach American women how to get the ballot. They are too intelligent to need to be taught."

"I wish it could be understood," she stated, "that the suffrage movement in England is not directed against King George, but against Asquith, the prime minister, who is blocking woman suffrage."

"Our motto is 'Death or the vote' English officials realize that we are ready to die, but they are taking care to allow no one to die, because they fear hard if they fall under the judicial eye of Superior Judge Thomas."

The judge's declarations in a case that came up before him yesterday were very positive on that point. Whenever a case comes to his attention he will give the couple an opportunity to conform to the statutes, and if they fail to do so the case will be referred to the district attorney for prosecution.

Yesterday in the juvenile court occurred a legal battle for the possession of a 5-year-old boy. Pedro Luna of San Pedro asked that the boy be taken from the child's mother and he turned over to him. The tale that was told through the witnesses was an instance of the loose way in which Mexicans regard mating.

Luna and the woman, then a girl of 16, began living together without marriage in Mexico. They came here. Several years ago the woman left Luna, Luna keeping two of the children and the woman, whose name is Angelica Carreles, took the eldest, a boy.

She lived with another man, and then left him and for several years has been living with Francisco Garcia, who was legally married to another woman.

The woman is evidently very fond of the boy and strenuously resisted Luna's efforts to get possession of him. She went on the stand and testified that Garcia is the father of the boy.

## REGISTRATION OF FIFTY RESIDENTS OF ANAHEIM ATTACKED BY THE DRYS

## Court Is Asked to Purge Great Register Of Half a Hundred Names

Half a hundred persons registered at Anaheim are being served with summons to show cause why their names should not be stricken from the Great Register of Orange county.

The drys are back of the suit, which was filed at 11:59 o'clock today by Attorneys Walter Eden, deputy district attorney, and E. E. Keech, Edward M. Schlotter in California, and about fifty names appear in the list of the defendants, whose right to vote is attacked.

Practically all of the defendants are supposed to be wets. A few of them are known drys, their registration being attacked by the drys in order to establish their right to vote.

The point at issue with them comes by reason of the fact that a number of another Colony residents recently filed on government land in Arizona and in doing so designated themselves as residents of Arizona. The question as to whether they have lost the right to vote in California on the day of the election, Nov. 6, will be decided by the superior court. Among the wets whose registration is attacked upon that ground is Otto S. Rust, owner of a winery at Anaheim, and for four years previous to the present administration mayor of Anaheim.

Out of the fifty whose registrations are subject to the action, filed this morning, only eight or ten are in that class. A good many are attacked on the ground of length of residence. In order to vote, a person must have been in the state at least a year, in this county at least ninety days and in the precinct at least thirty days.

## MANSLAUGHTER IS LAID AGAINST DUKE

So Says Friend of Admiral Son of Tobacco Magnate  
Eaton at Trial of Mrs. Eaton for Murder of Husband  
by Careless Driving

PLYMOUTH, Mass., Oct. 18.—Denial of the allegations that Admiral Joseph G. Eaton was insane when he died, or that he was an habitual user of drugs, was voiced from the witness stand by Joseph Frame of Rockland, at the trial of Mrs. Jennie May Eaton, charged with poisoning her husband. After outlining his visit to the Eaton home, Frame testified that Mrs. Eaton told him she thought the admiral insane and that he should be committed to an asylum.

"On March 7," the witness testified, "I was summoned to the Eaton home. The admiral was very ill and had been vomiting all night. I diagnosed the case as indigestion. At 5:35 Saturday morning Mrs. Eaton informed me the admiral had died."

## HINDU RESIGNED TO FATE

RICHMOND, Cal., Oct. 18.—Said Ali Khan, the Hindu murderer of Rosa Dinning, refused today to discuss his confession. He seems resigned to his prospective fate. His preliminary examination is set for Wednesday.

## MEXICANS NOT CONFORMING TO MARRIAGE LAWS ARE PUT UNDER BAN BY JUDGE THOMAS

Mexicans who have come to this county must conform to the marriage laws of California or they will fare hard if they fall under the judicial eye of Superior Judge Thomas.

The judge's declarations in a case that came up before him yesterday were very positive on that point. Whenever a case comes to his attention he will give the couple an opportunity to conform to the statutes, and if they fail to do so the case will be referred to the district attorney for prosecution.

Yesterday in the juvenile court occurred a legal battle for the possession of a 5-year-old boy. Pedro Luna of San Pedro asked that the boy be taken from the child's mother and he turned over to him. ## GERMANS SAY BOMB STORY IS SILLY

Dismiss Report of Explosive Was Dropped on Destroyed Zeppelin "L-2"

## TON OF STORED GASOLINE ON AIRCRAFT EXPLODED

Lieut. Von Bluel, Sole Survivor of the Wreck, Died Soon After the Disaster

BERLIN, Oct. 18.—Government officials today characterized as "preposterously silly" the report that airship "L-2" was destroyed by a bomb dropped from an aeroplane. Several aeroplanes were in flight at the time, but all the aviators are known.

It is quite certain the ton of gasoline stored on the Zeppelin exploded, causing the disaster which has created a most profound sensation in and around Berlin, and the entire empire, particularly official circles, were greatly shocked, as great store had been set on the possibilities of the airship as one of Germany's defenders in time of trouble.

The shock to the nation was intensified by the fact that the disaster followed so closely on the destruction of Zeppelin L-1, September 8, last, at which time the lives of fifteen were snuffed out in a hurricane in the North Sea.

Sole Survivor Dies  
Lieutenant Baron von Bluel of the Queen Augusta guards undertook to make the trip as a guest, and he was the only person to come out of the wreck alive. He passed away shortly after.

German Aviators Dying  
BERLIN, Oct. 18.—Aviator Lubbe fell from an aeroplane on Johannisthal field today, and Aviator Eietang dropped near Stenda. Both are dying.

Russian Aviators Killed  
MOSCOW, Oct. 18.—Aviator Kierschinski and his mechanic were instantly killed today in an aeroplane accident.

## SULZER UNDECIDED AS TO HIS COURSE

Says Has Choice of Couple of Nominations from the Progressives

ALBANY, Oct. 18.—Ex-Governor Sulzer had not definitely decided today whether or not he will seek vindication at the polls this fall. He said he was considering two offers: one is the Progressive nomination for congress, and the other is the same party's nomination for the state assembly.

Sulzer will leave the executive mansion tomorrow and will be escorted to the railroad station by a brass band. He said he might change his mind, however, about going to the Adirondacks.

Sulzer had aged ten years overnight, but was still defiant. Tonight he will attend a banquet given in his honor and will receive a loving cup inscribed "To William Sulzer, a victim of corrupt bossism."

## CAPT. INCH DENIES TALES OF CREW'S COWARDICE

NEW YORK, Oct. 18.—Captain Francis Inch seems rather embarrassed than gratified by the praises that are being showered on him for his conduct during the burning of the steamship Volturno.

Captain Inch absolutely denies the stories that there was any cowardice displayed by any of his sailors. His eyes, which were injured by the glare of the fire, are still troubling him but the physicians stated that he would recover from the trouble.

## DR. SUN YAT SEN IS NOT UNDER ARREST FOR EMBEZZLEMENT

TOKIO, Oct. 18.—Dr. Sun Yat Sen, former provisional president of China, now a fugitive on account of his connection with the recent uprising against Yuan Shi Kai, was found at his home here today by reporters. The story that Dr. Sun had been arrested for embezzlement of funds from the Chinese government was denied.

Night school now in session at Orange County Business College.

Captain Robert Scott, the Famous Explorer, Who Reached the South Pole and Perished on the Return Journey, to be Shown in Wonderful Motion Pictures at the Grand Opera House, Sunday and Monday.

## AMUSEMENTS

What the San Diego Sun has to say about the Scott Pictures, to be at the Grand Opera House Sunday and Monday afternoons and evenings, Oct. 19 and 20:

"The Undying Story of Capt. Scott" was an inspired title to the motion pictures which were made by Herbert Ponting on the great British expedition to the south pole and which were shown at the Spreckels last night for the first time in San Diego. They amuse with the little comedies of animal life which those marvellous explorers met they thrill with the same magnificent views which their eyes saw and they impress as no other with the great tragedy which befell Capt. Scott and four of his brave companions after they had reached their icy goal.

For these pictures follow the little band almost to the time they died, and the record they make is one that cannot be forgotten by any who sees them.

"For more than two hours a large number of spectators sat and watched these wonderful films and applauded them with a fervor which left no doubt as to their convincing appeal. Not the least feature of this entertainment is the lecture given, as the films roll through, by the Shakespearean actor, Charles B. Hanford. With his marvellously clear voice he tells the story in such a way that no one who has ears need miss a single syllable of any word, and the success of the performance is due largely to that fact."

## SPORTING BRIEFS OF THE WEEK

NEW YORK, Oct. 18.—As this is the open season for the spilling of "Next year" talk, get ready to watch Clark Griffith's smoke in the American League during 1914. The "Old Fox" expects to be in the race from bell to bell. He isn't claiming the pennant, but lightning has been known to strike in other places than Philadelphia, so how about Washington?

Furthermore Grif calmly announced that he would never buy another pitcher as long as he is mixed up in baseball. After that he won't have any use for them.

"Go out and pick them," said Griffith. "That is the only way to get the good ones now. I have five pitchers on my staff at the present time who give promise of being as good as they make them. Not one of them cost me a nickel; not a nickel. They are Boehling, Shaw, Bentley, Harper and Engle. Boehling showed what he was worth this season by peeling off ten straight victories as an opener. He will be even better next year."

Griffith is not waiting until next spring to get started with his young pitchers. They are working right now. As soon as the regular season closed Grif hustled up to New York for the world's series and the rest of the team scattered, but the youngsters stuck right in Washington with a catcher. They are a little shy on control and Grif will keep them on the job, working out every day until the snow flies.

It was only early this spring that Griffith yelled about the scarcity of left-handed pitchers. Then Boehling came along. Now he has Bentley and Harper, southpaws, added to his string. Shaw, who came to Washington from York, Pa., team, is touted as having as much speed as Walter Johnson. Grif can't see any reason for worrying through the winter. To help Griffith along a bit with his hopes for next year, we nominate President Wilson as the candidate to pitch the ball out on the diamond for the world's series. The Athletics caught him with a crippled team for six games in a row or there would have been a different story to tell this year, in Grif's opinion. And the Washington Boss declares Walter Johnson could beat the Giants three games out of four without batting an eye.

In line with the "next year" song of the diamond, take a look at the honorable golf situation. In June anyone who suggested that a rival to Jerome Travers might be developed would have been a candidate for the nearest padded cell. October

## "CASCARETS" CLEANSE LIVER AND BOWELS

Feel Bulky! No Headache, Sour Stomach, Bad Breath, Constipation

Get a 10-cent box now.

Are you keeping your liver, stomach and bowels clean, pure and fresh with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system the constipated waste matter and poison in the bowels.

No odds how sick, headachy, bilious and constipated you feel, a Cascaret tonight will straighten you out tomorrow. They work while you sleep. A 10-cent box from your druggist will keep your head clear, stomach sweet and your liver and bowels regular for months. Don't forget the children—their little insides need a gentle cleansing, too.—Advertisement.

rolls around and 'travers' master has apparently developed. Young Francis Quinnet has had his fling in the papers as the savior of his country in trouncing Vardon and Ray in the open championship, but he has yet to beat Travers in the National Amateur.

It is a rare combination to find a man who is master of both medal and match play, but Quinnet is all that. He failed to lift Travers' title at Garden City this year, but "Jerry" will have a real match on his hands when he is called to defend the championship again. Looking over the sport field there is apparently nothing that American athletes could not take up and beat the Fathers of the sport within a few years. Golf is comparatively new in this country, and yet a player has been developed in Quinnet who defeated the best England, a veteran of fifty years at golf, had to offer. The game is growing in popularity by leaps and bounds. It isn't a freak growth, but a steady climb that will stick.

When you get a game in which a son, father, and grand-father can meet on equal terms, it might be broadly considered as something of a miracle. Such is golf. No better example of the possibilities golf holds out could be found than that presented during the play of the Senior Championship at Rye, New York. There Justice Pitney, of the U. S. Supreme Court, railroad magnates, and just ordinary citizens met in open competition. A contestant must be over 55 years of age to enter the tournament. The sensation of the play was a man 82 years old.

Alexander Milne of New York was the man. In 1847 he competed for the town medal of Montross, Scotland. For 44 years he did not play golf at all. Then he "came back" and turned in a score that made some of the younger players look to their laurels.

Apparently you are never too young to get the golf bug, and never too old. A game of that sort is likely to live for a while. Going at the rate the United States has traveled in 25 years of golf, there is every reason to believe the greatest players of the world are yet to be developed on our own soil.

## THE LATEST FASHION NOTE

Says: "It is a wise precaution against getting holes in delicate hosiery to powder the shoes before putting them on." Many people sprinkle the famous antiseptic powder, Allen's Foot-Ease, into the shoes, and so that it saves its best times over a keeping holes from hosiery as well as assuring friction and consequent smarting an "aching of the feet."

## RAISE MONEY WITH SOCIAL

Affair Realized \$50.60 for Piano for School—Talbert News Notes

TALBERT, Oct. 18.—On Thursday night at the Japanese hall, Miss Meade and Hallacy gave a nicely planned box social to raise money for a piano for the school here. A large crowd was present and \$50.60 was the amount realized. Mr. McCreary of Holly Sugar Company was auctioneer. Mr. and Mrs. Henderson Cheney of Long Beach visited the family of R. B. Wardlaw.

Mrs. N. H. McCuiston and daughter Flossie have gone to Garvanza for the winter months. Mrs. McCuiston goes for her health and the daughter will attend business college.

Mrs. F. J. O'Donnell of Red Bluff spent a few days last week with her sister, Mrs. J. J. Townsley.

Mr. and Mrs. Will Brady and children visited with his sister, Mrs. S. E. Talbert, Sunday.

A. B. Shaw of Long Beach spent Monday and Tuesday with Mrs. H. W. Mathews.

Mr. and Mrs. Ray Heacock chaperoned a merry crowd of young people to the beach last Tuesday night. The affair was a weenie bake in honor of Miss Flossie McCuiston.

Work on the bridge over the river on Talbert road is rapidly progressing. Holes for the concrete foundation are being dug.

Mrs. Jno. White and children of Newport Heights spent Sunday with Mr. Roy Manly.

Quite a goodly number of folk enjoyed the barbecue at Holly Sugar factory Thursday. The crowd was estimated at 1600.

Rev. and Mrs. R. Pyke of near Santa Ana spent Wednesday with their daughter, Mrs. J. J. Townsley.

Miss Laura Amirose, who has been ill at the home of her sister, Mrs. C. F. Ward, has improved sufficiently to return to Los Angeles and resume her duties as trained nurse in that city.

The ball game last Saturday between the V. M. C. A. boys of Occidental College and the Talbert boys ended with a score of 15 to 13 in the visitors' favor. The game was lively throughout and was witnessed by a good crowd of local fans.

Next Sunday is the last service in the local church before the annual conference which meets in Santa Ana October 22.

—If a saving of from \$150.00 to \$250.00 on an instrument appeals to you, it is time for you to act, and you must do it at once. Terms to suit you. Eilers Big Piano Sale, 307 North Syracuse, Santa Ana.

## TIMELY WORD OF CAUTION TO CALIFORNIA AVOCADO GROWERS

Advised by Department of Agriculture To Plant Only Such Varieties as Have Proved Their Commercial Value

WASHINGTON, D. C., Oct. 18.—To prospective avocado planters in Southern California who may consider the advisability of planting avocados on an extensive commercial scale, the U. S. Department of Agriculture offers a word of caution. Many varieties of avocado of which a considerable number have recently been imported from without the state, have never fruited at any point within the state, so far as is known to the Department. For this reason their suitability for commercial culture in their new environment is still a matter of question.

Experience with young avocado trees of certain varieties, principally the large fruited West Indian and South American kinds introduced in Southern California, has up to the present seemed rather discouraging than otherwise. The newly introduced plants have proved considerably more susceptible to frost than some of the Mexican types which have fruited in California, and during the cold weather of January, 1913, many trees of the West Indian and South American varieties were killed in localities where Mexican trees survive. These trees were all young specimens and probably not able to withstand as low temperatures as a mature tree; nevertheless past experience has indicated beyond the possibility of a doubt that all so-called

South American varieties which have been tested were much more tender than numerous Mexican varieties established in the California trade.

California avocado planters have seemed particularly desirous of obtaining a variety that ripens late in the fall. The mere fact, however, that a variety fruits in Florida in the fall does not necessarily determine that it will fruit during the same season in California. Indeed the different climatic conditions of the two regions might possibly alter the fruiting season. This is known to be the case with several varieties introduced to California from other regions.

Numerous varieties of avocado which have originated locally as seedlings are now offered by California nurserymen. Others have been introduced from the cooler regions of Mexico, and give promise of being as well adapted to California conditions as those of local origin, most of the local seedlings, in fact, being the progeny of trees growing at various points in Mexico and Guatemala.

Those who contemplate the establishment of a commercial avocado orchard at present would certainly be safer, therefore, in planting varieties which they know to be adapted to California conditions rather than to undertake the extensive planting of any varieties the hardness of which has not been established.

## OAKLAND SCHOOLS WIN NATION'S EYE

Latest One is Provided With Equipment for "Movies" and Stereopticon Views

(Special to Register.)

OAKLAND, Oct. 18.—Full equipment for "movies" and stereopticon views is one of the features of the College Avenue School in this city, the first of the new type of school structures to be erected in this city since the renaissance and subsequent sale of the municipal improvement and school bonds of Oakland at a higher rate of interest. All of the new schools will be equipped for "real" lessons, which are now recognized by educators as an invaluable method of instruction.

The College Avenue School, like all of the new buildings here, is of one story in height and of fire-proof construction. It is of the Northern Italian architecture and is finished on the exterior in concrete plaster. The building is L-shaped with two wings radiating from a central entrance rotunda. Immediately behind the rotunda is a building containing the school assembly hall and is reached by a corridor, the axis of which is the rotunda, as is also the case with the corridors for the class rooms in the two wings.

All the class rooms, which number thirteen, are so arranged as to receive the greatest possible amount of sunlight and one entire side of each room is given over to windows which reach from within two feet of the floor to the ceiling. The entire amount of window space can be used for ventilation, thus transforming each room into one of the open-air type. The heating and ventilating system is in the basement where the fan room from which the heat and air, when needed, is forced through the building.

There are domestic science and manual training rooms in the school building, together with a teachers' rest room, principal's suite and club-rooms, with culinary department attached, for the use of neighborhood clubs and kindred organizations. By this means while the school buildings are of a type entirely new in school architecture, at the same time they revert to the times when the school house was the common meeting place for the entire district. All of the new schools will serve as community centers.

The heating and ventilating system is of the most approved type of this branch of engineering and the sanitary equipment the best that can be secured.

An extension of the assembly hall in the shape of a covered pergola serves to divide the school yard into two triangular playgrounds, one for the boys and the other for the girls. The new Oakland schools are attracting nationwide attention among educators and school architects and John J. Donovan, architect in charge, is in receipt of inquiries from all parts of the country as to their features.

## HOW EXPERT WILL TEACH ART OF BRINGING UP CHILDREN

Prof. McKeever Engaged by University Of Kansas as Child Welfare Head, Gives Work Outline

LAWRENCE, Kas., Oct. 18.—The state of Kansas is going to stand sponsor for every boy and girl in the commonwealth. Kansas isn't satisfied merely with giving its children the benefit of eight or nine months of regular schooling. The state will "mother" its children outside of school, on the playlots, in the home, through the Department of Child Welfare established as an extension course of the University of Kansas, at Lawrence. William A. McKeever, formerly professor of philosophy at the State College at Manhattan, was called here to take full charge of the work as being the best known expert in child welfare in the country. He will devote his entire time to the task. The boys and girls and mothers and fathers of the state are his pupils. Since Kansas is glad to pay his salary to tell the mothers and fathers of Kansas how to bring up children, his views may strike home to every mother and father in the United States. His article, written especially for the United Press, follows:

BY WILLIAM A. MCKEEVER  
(Written for the United Press)  
First among the efforts of this new department to make out a more complete and unified plan in behalf of boys and girls—to protect the lives of town and city children—will be the following:

1. A plan for the vacation employment of the city school boy. The chief purpose will be to provide work that is disciplinary, and helpful to his character as well as remunerative in a small degree.

2. The formation of parents' clubs and such kindred organizations as parent-teacher associations. In this connection, it is hoped that there may be frequently an opportunity to offer parents a short course in child psychology, say six to a dozen lectures extended through a week's time.

3. The establishment of playgrounds and social centers for the young. There is already much interest in this matter throughout the state, but the enthusiasm for it needs expert advice and guidance.

4. Assistance in the organization of civic improvement clubs, in all cases where the proposed program of work includes the local child welfare interests.

5. To offer individual counsel and advice through correspondence to parents who have special problems in the training of their own children.

In short, the effort will be to supplement the child welfare work already being done by the school, the home, and the other institutions. Thus we may be enabled to make out a larger and more unified plan for the training of the boys and girls of Kansas.

Boys and girls on the farm are being brought up under a great variety of plans and specifications. Many are over-worked, and thereby denied the privileges of play, recreation, and social activities such as rightfully belong to their years. Very many are without the advantage of helpful plans and motives for acquiring an advanced education. Many promising farm boys and girls are growing up crude and untrained, simply for lack of a clear vision of some high achievement which might be brought within their reach.

Usually the farm parents are earnest and conscientious in their desire to do the fair thing by their children, but they are at present suffering from lack of a well-thought-out plan, such as will guide and stimulate them in their effort to bring their sons and daughters to the accomplishment of some large purpose in life. This new department of Child Welfare in the University of Kansas will make a serious effort to meet the needs of the farm boys and girls as suggested above, and to place in the hands of their parents a set of definite plans, methods, and ideals for child training in the rural home. We must have a far-reaching plan for growing a new crop of men and women on the farms—men and women with a sane, wholesome, and courageous sentiment in regard to life in the country.

Home Training Bulletins—which are now known throughout practically all the English speaking world—

will be distributed at the nominal price of two cents each for samples, and one cent each for quantities intended for free distribution. The titles of the bulletins are:

The Cigarette Smoking Boy; Teaching the Boy to Save; Training the Girl to Help in the Home; Assisting the Boy in the Choice of a Vocation; A Better Crop of Boys and Girls; Training the Boy to Work; Teaching the Girl to Save; Instructing the Young in Regard to Sex; The Boy's Vacation Employment.

### ARIZONA AND GOOD ROADS

(Riverside Press.)

Arizona is working out the problem of improved highways by a series of county bond issues and the first county to vote in the matter is Yuma, on the Colorado river. An election was held in that county a few days ago and bonds for \$500,000 were authorized to provide for a comprehensive series of system of roads for the entire county.

That may not seem such a very large sum, but we have to take into account the population and wealth of the county. According to the last census Yuma county had 733 population, or less than half the population of the city of Riverside. This county had five times as much population and the relative proportion has probably been maintained since. The figures on assessed valuation are not available but the difference would probably run about the same as the difference in population.

Riverside county is planning a bond issue of \$1,000,000 for good roads and here is our little neighbor across the river in Arizona voting \$500,000 without any signs of hesitation. That shows courage and enterprise of the highest order.

When we are ready for the good roads campaign in this county, we may well emulate the example of Yuma county, and perhaps we could persuade some of the good road enthusiasts from that county to "come over into Macedonia" and help us.

## "THE BANKER, WHAT HE DOES"

"The Banker, What He Does, How He Serves Society, Who He Is." This is topic which Gridley Bede in the Washington, D. C. Herald discusses. Says Mr. Bede:

"The Owen-Glass Banking and Currency Bill, before the Democratic caucus of the House for two weeks, is to affect the safety of every deposit in every bank, no matter how great or how small. Bankers and all other good citizens who believe it is possible to evolve a new and more responsive national banking system than we now have, are therefore united in hoping that a good bill will be passed, for the legislation is vital to every depositor and infinitely above party lines. It affects the happiness of millions of people and the safety of many billions of values."

"But in the process of public discussion the men in every community who have stood above all others for safety in handling the people's money—the bankers themselves—are catching slurs right and left. Within thirty days an eminent United States Senator has flouted the idea that bankers should have any share in managing the Federal Reserve Board. He says, in illustration, that railroad men should not run the Interstate Commerce Commission, nor meat packers administer the food and drugs act. "He has overlooked the fact that the Interstate Commerce Commission does not run a single railroad; railroad men do that; nor does the food and drugs act invade the working of a packing establishment unless it is working wrongly. But the Federal Reserve Board will have powers of financial life and death over the banks of the nation, whether those banks are run well or run poorly."

"Who is this much distrusted person, the banker? Every man may take a fling at him without fear, for the banker must hold steadily to his own task of maintaining financial stability, even if fools would fiddle while their own credit burned. It is as dangerous as if passengers were to throw lumps of coal at the hand of the man who is watching the throttle."

"The banker is the man who caused a little over \$3,000,000,000 in money in the year 1912 to do \$168,000,000,000 worth of business in less than 100 clearing houses. This huge total represents only a fraction of the magical activity of the American dollar, for all the check transactions of all the thousands of banks in small communities are omitted. Under the influence of the banker, every dollar in America is known to turn over more than once a week, or fifty-three times a year, and no statistician can tell how much more nimble it is."

"The deduction from the above figures is this: Without the banker and the function he serves in a community, there would be a complete paralysis of business. If we all returned to a cash basis and could only use our money directly, we should be almost as badly off as in the days of barter, for then only those could buy and sell who actually met each other's needs. The money in our pockets would be active only when we saw something we wanted to buy and we might meet a hundred who had things we did not want to buy, but who were anxious to sell. Whereas, under banking conditions the banker performs a second, almost a magical, feat with our money. He takes it. He lends it out to others; they put it into channels of trade that do not interest us at all. Our money is out in the world, yet never alienated for a moment from rightful ownership. It is working there to earn interest, some of which comes back to us."

"This much-distrusted banker performs a third magical function in our daily life. He gives money values to things that could not easily be treated in terms of money without him. He lends on commercial paper that may be based on anything from bricks to boards, or from beef fat to bills of lading. Would the general run of depositors lend on general merchandise? They could not dare the risk because the field would be new, and therefore seem dangerous."

"But the banker knows that the chance for a merchant to realize on many a bill of goods depends altogether on the accommodation he can secure, and hence the go and zip of trade in every community can be tracked back to the banker and through him to the depositor who trusts him."

"The banker maintains our wonderful credit system, making sure that for every scrap of paper bearing the signs of money there shall be an underlying value in some material resource or another; or, as in the case of accommodation paper, in the moral resource of character. He frequently lends on accommodation paper, where nothing but the good name of a man stands between the money and loss; yet the banker knows that goods are not the only assets, and he counts millions of times on character, and wins his money back, while the good man in a pinch pays his little modicum of interest for an accommodation."

"Shut out the banks and remove their functions of trust and every line of business would shrivel like Jonah's gourd. Therefore, instead of our history proving that the nation through its delegated powers in Congress must step between 50,000,000 people and 27,000 bankers to save the people, the problem for Congress is the universal maintenance of confidence in banks themselves, so that they and the people may be saved."

"There is a common phrase, 'They all look good when they are far away.' Reverse this phrase and you have the attitude toward the banker. 'They all look bad when they are far away and good when near.' Look around our own community for the injustice of all this doubting, defaming attitude. Who are its most trusted citizens? The bankers and their directors. It must be so, for no banker is given money to care for unless he is trusted. He is a goner unless his community believes in him. The average man will trust a banker in advance of trusting his intimate friend; for he will place money, representing his whole financial fate, in the hands of the banker and never think twice about it."

"Very well! What is true in one community is true in every other. The whole banking profession and the directorates of banks must necessarily stand high or they would not stand at all. See how a proof of this has come out of the supposedly venal New York within six weeks. A new bank was opened. In less than two weeks it had over 11,000 depositors and \$1,000,000 on deposit. The sole reason: The president was a well-known leader in his part of the city, and everybody believed in him. The same rule holds exactly in every other locality."

"The most insidious feeling against the banker is found perhaps in the knowledge that he makes money out of the means of other people. He must. He has to set money to work. It is his function to keep it active; for if he hoarded, then would he be only an amplified and more bulging stocker or kettie. His excuse for existence is in loaning safely. This is true locally, in reserve cities, and in central reserve cities—all the way up the banker must keep money moving in safe channels. He could not be expected to do this for nothing. The interest he earns comes back to every depositor who draws interest on time or daily balances; to every savings account, to every stockholder for whom the banker holds a place of trust."

"Right now this quiet gentleman lies awake nights deciding between granting or refusing accommodations, either step potent in producing a crash when confidence wavers. He represents ten million savings bank depositors with over \$4,000,000,000 entrusted to him for defense against all attacks. He and his directors in State banks, loan and trust companies, and in private banks stand between deposits of over \$7,000,000,000 and disaster. In national banks, which after all only earned 6.93 per cent, on capital and surplus in 1912, he stands as trustee for \$5,825,000,000 on deposit."

"In these days of oratorical hot-headedness let us get this thing straight: By a natural selective process the banker and his directors are the trusted and also almost invariably the trustworthy men of the community. The banker deals with the most timid commodity in the world, yet that commodity is essential to the transfer of all other commodities from producer to consumer. The banker is, therefore, the emblem of community faith. What is true in one community is true in all. The great task of Congress does not lie in providing inviolable safeguards, important though they are, but in seeing that community faith is not caused to waver by heedless talk against the emblem of that faith, the banker."

"Had we lived I would have had a tale to tell. These rough notes and our dead bodies must tell the tale."—CAPTAIN SCOTT'S LAST MESSAGE.

## ROOSEVELT ON THE PROGRESSIVE PARTY

From his address on the Eve of Departure for South American Trip.

I am about to sail for a six months' absence from this country. Next spring I shall devote myself with whatever of strength I have to working for the success of the Progressive Party and the principles for which the Progressive Party stands. The party is solid, and it is the firm determination of the rank and file, no less than of the leaders, to preserve its political entity, its solidarity and integrity. Next year we shall enter undaunted as a national party on another campaign. I will never rest content until every single principle enunciated by us is put into practical operation in this nation. It is emphatically a fight for our country. It is a fight for the entire American people. Men and women, I would continue the fight even if I stood alone. I shall continue it with a glad and proud heart because it is made in your company. I believe we shall win. I not merely believe, I know that in the end, whatever may befall us personally, the cause will win. The spirit which quickeneth is among us; our souls have been stirred to the depths; and I warn our opponents that the fight has only just begun. This movement will never go back; and whatever may be tide in the future, of one thing the disciples of an easy opportunism may rest assured—I will never abandon the principles to which we Progressives have pledged ourselves, and I will never abandon the men and women who drew around me to battle for these principles. They and I stand with our faces toward the morning; and we will never yield the ground we have taken or flinch from the fight to which we are pledged.

## A SURPRISE PARTY

Judge W. H. Thomas Honored by Event Tendered by His Sunday School Class

Last evening, at his beautiful home on West First street, Judge W. H. Thomas was given a surprise party by the devoted members of his Sabbath school Bible class.

Mrs. Thomas was let into the secret so that she might not be embarrassed, and that she might quietly make such preparations as were needed, but the judge was wiled away to the home of one of the class in the early evening. When he returned, his class, to the number of sixty or more, had assembled, and in darkened rooms were awaiting his coming. And never was a surprise more complete. But the judge was equal to the occasion, and a hearty hand-shake was given to everyone present. Then, after chatting a while Mr. Thomas brought out his stereopticon and entertained the company.

The judge first gave a series of reproductions of printed cartoons, showing the folly and cost of the use of alcoholic drinks, in the abolishment of which Mr. Thomas is so intensely interested. Then for an hour he showed views taken, as he joyously expressed it, on his bridal tour seventeen years after their marriage.

He showed Castle Garden in New York City, where as a little Welsh boy of six, he landed on the shores of his adopted country. A series of views in the city of Washington, D. C., Mt. Vernon, Arlington, etc., was also shown.

The class then served refreshments. A huge cake less than two feet across—end not much less, either—was brought in and presented in a touching speech by the Sunday school superintendent, Mr. Thacker, in which he expressed the appreciation which the class had of Judge Thomas' strenuous work in all lines of civic righteousness.

To this Judge Thomas feelingly responded, then proceeded to cut the cake, which by the way, was decorated with forty-five candles in honor of his birthday, and the company was heartily invited to all be present forty-five years hence, at a similar gathering.

After chatting a while all went to their homes, the aged and infirm being taken in the judge's auto.

At Tustin Reception  
Prof. and Mrs. Cranston and Mr. and Mrs. F. H. McElree were the guests from Santa Ana attending the teachers' reception at Tustin last night. Mr. Cranston gave a talk recommending the organization of a Parent-Teacher association at Tustin and Mrs. McElree also aroused enthusiasm along the same line.

## WISCONSIN FINES WOMAN \$21.80 FOR GOSSIPING

The state of Wisconsin, which is deeply concerned in the welfare of its people, has enacted an anti-gossip law. Its first victim in Outagamie is Mrs. Rose Lehn, who pleaded guilty to a gossip charge preferred by a Mrs. McDonald and Emma McDonald. Mrs. Lehn was fined \$21.80.

The Wisconsin anti-gossip act covers cases of "near slander."

## OCTOBER

'Tis a banner of gold and scarlet

October flings to the breeze,

And none other of all the twelve months

Can boast such colors as these.

For the trees that through all the summer

Have been dressed in the darkest green,

Now hanging with red and yellow

In most gorgeous gowns are seen.

—Progressive Teacher.

## The Delta Alphas

Last evening the beautiful house of Prof. and Mrs. A. M. Shaw on North Parton street was thrown open to the Delta Alpha class of the First M. E. Church and their teacher, Mrs. J. H. Edwards.

This was the first of a series of social evenings planned to be held often to enable the strangers in the class to become acquainted and get the "homey" feeling more quickly. The girls took their fancy work and with this and genial conversation the evening hours passed all too quickly as they always do at the pleasant Shaw home. Light refreshments were served, closing a most enjoyable event.

## Opening Ball Was Success

The opening ball given last night at the armory by the Meikeljohn School of Dancing was largely attended and was a most successful social affair. Dancing began at 8:45 o'clock and good music made it a genuine pleasure.

## Business Meeting and Supper

Mrs. Lea Warren's Sabbath school class of the United Presbyterian church held a business meeting and 5 o'clock supper in the church dining room yesterday afternoon. The new officers for the year were elected as follows: President, Ada Hoy; vice president, Carolyn Finley; secretary, Mary Le Page; treasurer, Gladys Shields. Refreshments of sandwiches, fruit salad, pickles, cake and cocoa were served.

## To Organize P. T. Association

There will be a meeting held at the Tustin school on Wednesday afternoon, October 22, at 3 o'clock, for the purpose of organizing a parent-teacher's association. All interested are invited to be present.

## COUNTY CLUB FEDERATION

Women's Clubs of Orange County Program for Meeting Oct. 22 at Huntington Beach

The Federation of Women's Clubs of Orange county will meet at Huntington Beach at Odd Fellows' hall on Wednesday, October 22, with the Huntington Beach Woman's Club and the Ebell Club of Newport Beach as hostesses. The following program will occupy the day:

10 a. m.—Music; address of welcome; response; reading of minutes; adjournment for luncheon brought by those attending. Coffee and tea will be served by the hostess clubs. During the luncheon hour there will be an executive session.

1 p. m.—Music; report of executive board meeting; report of treasurer and auditor; 3-minute reports of club presidents; 10-minute address on Civics; reading, "The Russell Sage Foundation"; 10-minute addresses, "The Benefits of Federation," "Philanthropy"; other speeches; report of credentials committee; report of nominating committee; election of officers; report of resolutions committee; unfinished business; new business; introduction of new officers; music; adjournment.

Among the speakers will be H. S. McCallum of Los Angeles, chairman of the organization committee of the 700,000 Boosters' Club of Southern California.

It is suggested that the ladies of the various clubs in the different towns of the county consult as to refreshments. Each lady is expected to take but one article of refreshment, such as meat-leaf, cake, or any dish she may prefer to supply or as agreed on by the members of the club to which she belongs.

Present Day Club  
The first meeting of the Present Day Club after the summer vacation will be held next Monday evening at the home of Mr. and Mrs. Lou P. Hickox, 1218 North French street.

## Dr. Betz Raises Dates

The Los Angeles Times has the following to say of Dr. Laura Betz, who formerly lived in Santa Ana, and who successfully practiced osteopathy here:

"Dr. Laura Betz, owner of a ranch near Calzona, is at the Lankershim. She and several relatives went from Los Angeles to the valley three years ago and filed on government land. They are making a specialty of date culture. 'We find life in the desert to be very interesting,' Dr. Betz said last night."

## Webster Club Meeting

The first evening meeting of the Webster Debating Club of the High School was held last evening at the home of Miss Helen Roberts on Spurgeon street. The Roberts home was very cleverly decorated to carry out the Halloween idea. Cobwebs of black thread extended from the electric light to the corners of the room, and grinning black cats, bats, spiders and witches were in evidence about the rooms. Ice cream and cake in pink and white were served during the social hour which followed the business session. A fortune-telling booth proved an interesting corner and wonderful fortunes were told by the picturesque fortune teller. The booth and the Halloween decorations were under the direction of the social committee, Miss Helen Roberts, Miss Corinne Burns and Maurice McElree, and reflected credit on their ingenuity.

During the business period fifteen new members were initiated. The initiation following the roll call which was responded to with extemporaneous anecdotes. There were about thirty young people in attendance and the outlook for the year is a flattering one.

## Meeting of D. P. S. Club

This club met yesterday afternoon at the home of Mrs. Carl Klatt at the corner of East Seventeenth street and Tustin avenue. The beautiful home was simply but artistically decorated with lovely white and yellow chrysanthemums and pepper bouquets. The affair was really a farewell party for Mrs. Klatt's mother, Mrs. Few, who leaves soon for her eastern home after a stay of a year in Santa Ana.

There were nineteen members of the club present and two visitors, Mrs. John Dunstan and Miss Miller of Tustin. The ladies heard many interesting things from the hostess and Mrs. Lewis Klatt, both of whom have recently returned from the east. Fancy work and delicious refreshments were features of the afternoon which was most enjoyable.

The next meeting of the club will be held with Mrs. J. E. Meyers, 806 South Main street, on the third Friday of the month.

Roast duck, roast chicken, ice cream, etc., etc. Dinner at Hotel Rochester, Orange, tomorrow, 50 cts.

## Woman's Club to Meet

There will be a meeting of the Women's Club of Santa Ana on Tuesday afternoon, Oct. 22, at 2:30, at the home of Mrs. Sarah Utley, at 433 East Pine street. Responses to roll call will be current events relating to laws passed by the last legislature. The program for the afternoon session will be a parliamentary drill conducted by Mrs. Martha J. Marks.

Business of importance is to be brought before the club for consideration and a large attendance of members is desired.

## A Pleasant Surprise

Miss Alice Huntington was most pleasantly surprised last evening by her friends at the home of Mr. and Mrs. Lester Slayback, 418 Pine street. The house had been decorated for the evening with Halloween designs and symbols, and the amusements on the evening consisted of games, music and dancing. A tamale feast was a jolly finish to the enjoyable event.

Those present included Misses Edna Rosier, Eva Ninkner, Genevieve Read, Mamie Miller, Frances Sturgeon, Alice Huntington, Cora Huntington, Messrs. Wendell Stevenson, Frank Hammett, Earl Sevier, Gene Stanley, Harry Rosier, George Clark, Mr. and Mrs. Slayback.

## Benefit Exhibit for Schools

Much talk is going on now in Santa Ana regarding the exhibit to be given by the members of the different Parent-Teacher associations on Thursday, Friday and Saturday afternoons and Saturday evening of next week in the commercial building of the old high school.

Any pieces of art, curios, relics or heirlooms will be acceptable and taken good care of, although each contributor is to be responsible for his own articles. Every piece must be well labeled and designated as to which school it is from, as a prize will be awarded to the school having the best exhibit.

Articles should be sent to the old high school early Wednesday afternoon.

A small admission fee will be charged, the money obtained to be used in forwarding the city Parent-Teacher Federation work for schools.

## Intermediate Social

Last evening the business meeting and social of the Christian Church in intermediate, held at the home of Clara Wilson, was largely attended.

After preliminary business the following officers were elected for the next six months: Francis Kendig, president; Ethel Brady, vice-president; Clara Wilson, secretary and organist; Duluna Brown, treasurer.

The social hour that followed in the form of a Halloween party was very pleasant. The young people were told to go to the witch and have their fortunes told. In a large, black pot by the witch were what looked like peanuts, but when opened they were found to contain very funny or funny fortunes. But before the guests opened the nuts, all went to the basement where there were jack-o'-lanterns and ghosts in dark places. Ghost stories were told and as they were being told, a ghost appeared.

When there had been enough of this to dream about, the company went on the lawn, where games were played until the hostess brought out delicious refreshments. After another game or two the guests parted, all having enjoyed the evening so much that it will not soon be forgotten.

Mrs. L. Augusta Cooper and her son, William King, came down from Los Angeles for an over-Sunday visit at the home of Mr. and Mrs. Howard Wassum.

Mrs. Lynch, who has been visiting here for some time, went over to Long Beach this morning for a few days' visit with her sister before her return to her home in Merced.

## Merry Go Round Club

This club met yesterday at the home of Mrs. Frank Cryer on North Ross street, in place of at the home of Mrs. John Ryan, as Mrs. Ryan was ill.

A pleasant time was enjoyed. A rose wedding, in which questions as to a matrimonial affair were answered by the names of flowers, afforded pleasant entertainment. Ice cream and wafers were served by the hostess.

The next meeting will be held with Mrs. Ryan on Thursday, Oct. 30.

## Evening With Cards

Cards were the amusement at a pleasant evening Thursday night at the Chester Congdon home. The guests, for whom refreshments were served after the card games, were Misses Claire Young, Mildred Curtis, Bernice Harsberger; Messrs. Bert Sutton, Earl Hamilton, Glenn Young; Mr. and Mrs. Earl Young and Mr. and Mrs. Lentz.

## Auction Bridge Whist

Mr. and Mrs. Howard Turner entertained the Auction Bridge Club Thursday evening. Mrs. John McFadden and Wm. Malone winning prizes. Refreshments were served after the games. ## At Mrs. Padgham's Home

The First Economics Section of the Ebell met yesterday afternoon at the home of Mrs. A. J. Padgham on Ninth street. The hostesses were Mesdames Padgham, Charles V. Davis, and J. J. Roper. The subject demonstrated was the art of candy making.

Mrs. Alice Harris, leader of the section, called the meeting to order, after which the program for the coming year was read. A variety of well chosen subjects promises an interesting and profitable year's work.

Christmas fancy work came next, and the dainty bits of needlework were brought from their bags and their merits and beauties discussed, and many valuable ideas were gleaned for the coming holiday season.

Business-like looking aprons were then donned, and the ladies were invited out into Mrs. Padgham's back yard, where each was given a buttered cake and a lump of taffy, which she proceeded to ball to the best of her ability. This very interesting occupation caused much merriment, and certainly proved to be a strenuous bit of work. The next meeting will be held the third Friday in November.

# TO HOLD EXES NOVEMBER 29

Bishop and Others Who May  
Want His Job Must Take  
Tests Offered

The State Board of Horticultural Examiners will be at the courthouse on Nov. 29 to give examinations to all applicants for the position of county horticultural commissioner of Orange county.

The term of County Horticultural Commissioner R. K. Bishop is ended, and under the ruling of the attorney general he must be re-examined along with any others who may seek the appointment from the Board of Supervisors. The examiners will certify to a list of those who succeeded in passing the examination, and from that list the appointment must be made.

Four years ago three men took the examinations, and Bishop was the only one who passed. He will be a candidate for reappointment, and as a graduate of the state university's agricultural department and a student of horticultural and agricultural matters there is no question but that he will be on the list certified to the supervisors.

From the Los Angeles Financial Review

## Fight Three Cent Fare

Five railroads in Arizona, on behalf of all the railroads operating in the State, are fighting the three-cent-a-mile law. The railways allege that the law would cut a \$200,000 hole in the Santa Fe's revenue; \$200,000 in the Southern Pacific's; \$75,000 in El Paso and Southwestern's, and \$25,000 each in the Merced Southern and New Mexico and Arizona's.

In their contest which is being waged in the Federal Courts, the railways scored a big point when the United States Circuit Court of Appeals in San Francisco, sitting en banc rendered a decision denying the motion on the part of Attorney-General Bullard of Arizona to strike out the supplemental showings made by the Southern Pacific, Santa Fe, El Paso and Southwestern, New Mexico and Arizona and Merced Southern Railroads in their attack on the constitutionality of the 3-cent fare law.

The importance to the railroads of the denial of the motion is found in the fact that had it been granted fares on all railroads in Arizona would have been automatically reduced at once from 4 and 5 cents to a 3-cent per mile basis, entailing a loss in railroad revenues in that State of millions of dollars a year. As the case now stands, the railroads are permitted to make other showings against the validity of the law than that of confiscation, the latter ground for attack having been touched upon in the Minnesota rate case so vigorously by the United States Supreme Court.

When the 3-cent law was passed in Arizona, the railroads immediately appealed to the highest Federal tribunal, claiming the law to be confiscatory. Before the Supreme Court rendered a decision the Minnesota rate case was decided and with it the definition of confiscation was announced.

Upon the denial of his motion, Bullard secured an order from the Court to cause the five railroads to put up bonds to insure the protection of railroad passengers in Arizona should the 3-cent fare law be held valid. Pending the Court's decision, the 4 and 5 cent rates are in effect. If the law is upheld the railroads must pay back to passengers the difference between 3 cents and 5 and 4 cents per mile, as charged now.

## As to California Oil Fields

Regarding the sale of the California Oilfields, Ltd., the London Petroleum Review, says: "With the announcement of the commencement of the exchange of shares of the California Oilfields, Ltd., for those of the 'Shell' Company, it is evident that the regime of the first-named concern is about to pass from the purview of those interested in oil. The secretary of the California Oilfields, Ltd., announces that he has been notified by holders of 355,886 shares in the company of their readiness to exchange their shares for 'Shell' shares on the terms already announced, and had received transfers accordingly. This figure, together with the 5,000 directors' qualification shares, which will also be transferred, has been deemed by the Anglo-Saxon Petroleum Company, Ltd., to represent a sufficient proportion of the total shareholders of the company to satisfy the conditions of their offer, and the exchange will therefore be carried into execution immediately. The secretary of the California Oilfields, Ltd., is authorized to announce that the Anglo-Saxon Petroleum Company, Ltd., being willing to keep open their offer for the present, any shareholders who have not been able to forward the necessary documents and acceptances to the secretary of the California Oilfields, Ltd., prior to September 15th, but who still desire to transfer to the Anglo-Saxon Petroleum Company, Ltd., on the terms of the circular of August 28th, should immediately and duly execute the form of transfer, and forward same to Dashwood House, London, E. C."

## Glass Defends Money Bill

In reply to the severe arraignment of the provisions of new currency bill, now pending in the Senate, by Senator Hitchcock of Nebraska, Chairman Glass, of the House Committee on Banking and Currency, attacks the Senator in a statement, as follows:

"While I do not think the currency bill passed by the House is a perfect measure and feel sure that it is somewhat susceptible of improvement, I am quite curious to know to what provisions of it Senator Hitchcock is to attach the several hundred amendments, of which he speaks in his rather persistent newspaper crusade against the bill. It would also be interesting if this distinguished gentleman would consent to be a little less general and a little more specific in his criticisms instead of several hundred alterations, as suggested in his latest newspaper interview. Mr. Hitchcock so far ventures to specify but four objections to the bill as it passed the House. "The assertion that the bill as it passed the House would triflingly contract commercial credits, even temporarily, is a figment of the imagination. As to the talk of an ultimate period of 'wild inflation,' it is curious to note that Senator Hitchcock in his plea for delay finds himself in exact accord with the two Republican members of his committee, who attached their signatures to the Aldrich scheme providing for a possible inflation of the currency to the extent of six thousand million dollars. Thus the cautious and the incautious, the anti-inflationists and the inflationists, find themselves teaming in the program of interminable procrastination."

## Improving 'Phone System

The Pacific Telephone and Telephone Company will expend in Los Angeles the sum of \$580,000 to improve their system. This expenditure is predicated on an application by the company a few days ago to the State Railroad Commission for authority to issue \$3,000,000 of its first mortgage and collateral trust 5 per cent. thirty-year bonds. It is the purpose of the company to use approximately \$1,850,000 of these bonds to retire a like amount of underlying bonds of the Sunset Telegraph and Telephone Company. The remainder are to be used for general improvement throughout the State.

## Appeals to Commission

The Reedley Telephone Company has applied to the Railroad Commission for authority to issue 2,500 shares of its capital stock at the par value of \$1 per share to provide for extensions within the city of Reedley.

The Southern California Utilities Company has applied to the Railroad Commission for authority to issue notes to the amount of \$50,000. The company is developing a water project in Riverside County.

## Bad for National Banks

An official of a Southern National Bank in writing to the correspondent of the Bank in Philadelphia is free in his comment on the administration Currency bill, which he declares will have a bad effect upon the banking interests of the country, particularly the smaller National banks, which he says will be put out of business. The letter is as follows:

"I don't see how any banker with good sense could think the proposed Currency bill fine. I don't know what it will do to you central bankers but it will put the country National banks out of business. Take us as an illustration, and we are larger than a majority of the country National banks, with our \$150,000 capital and \$1,000,000 of deposits. To carry our business we have to have in our vaults about \$75,000, at Jacksonville about \$25,000, and \$50,000 in Philadelphia or New York. The Regional Bank will not enable us to cut down these amounts one penny. We have to have about 20 per cent in cash and balances in order to collect our out-of-town checks and be able to pay the checks on this bank as presented and care for our customers. In our territory we are the only National bank and yet there are 21 State banks, trust companies and two savings banks. If the National Bank Act offers so little now, what will it offer under the new law?"

First: We will have to buy \$30,000, 20 per cent. of our \$150,000 capital stock. If Regional Bank stock limited to 5 per cent. dividends. We can loan this money here or almost anywhere in the South at 7 and 8 per cent. In loaning it locally you know we can get some good accounts by reason of the accommodations extended customers.

Second: We will have to carry a deposit of \$50,000, 15 per cent. of our \$1,000,000 deposits, with this Regional Bank, and without receiving any interest on it. The central banks to-day pay 2 per cent. and most of the Southern centers pay 3 per cent.

Third: We cannot reduce by one penny the amount of cash balances we have to carry at certain points to pay checks drawn on us, and collect checks deposited by our customers. In other words this \$50,000, which we have to tie up in the Regional Bank is really much out of our capital stock. Instead of having \$150,000 capital we will only have \$70,000. As this \$80,000 is worth 8 per cent. to us or \$5,400 we will have to pass up that amount if we stay in the National banking system.

Fourth: We are to remit for all clearing checks at par. This means another loss of \$6,000 to \$7,000. It actually cost us, clerk hire, stationery, shipments of currency, etc., about \$4,500. Then instead of being out \$5,400 we will be out between \$12,000 and \$13,000 or 8 per cent. of our capital stock, just to be able to hang a sign out "National" Bank. What is all of this for? Just to be able to borrow a little money. I have been banking 15 years, and have always been able to borrow such money as we needed from New York, good times and bad. In 1907, in the height of the panic, we experienced no trouble borrowing \$50,000 from the National City Bank of New York who charged us interest at the rate of 6 per cent. per annum.

Now, let's see about borrowing money from this Regional Bank. They will take certain commercial paper and high-grade bonds I believe. The average country banks loans are to farmers and small traders—perfectly good but not of the high ratings that would be required—the country bank has little or none in commercial paper and the same of high grade bonds—so what can they expect from the Regional Bank? Since we have been a National Bank we have actually lost nearly \$8,000 in premiums on Government bonds and deposited to secure circulation. This is a lot of money for a country bank to lose and is three times the amount of money we have lost since organization in 1902 in loans and investments.

There is some consolation in the fact that our State Legislature has just adjourned, and will not meet for two years—the hysteria of Bryan guarantee of bank deposit has exploded—a State Bank charter only costs \$30, and if this proposed currency measure goes through we will write out "The First National Bank" and continue at the same old stand. We will save lots of money in changing charter—no doubts to that in my mind.

## Petroleum Concession in Ecuador

The government of Ecuador has given a contract to Lord Murray of Ellbank, England, for the development of the oil resources of the Republic, his contract giving him the right to exploit the whole of Ecuador in sections without competition, he to expend \$500,000 within 10 years in making explorations. He receives the right to lay pipe lines, build quays and refineries, make canals and railways, set up telegraphs and telephones, and so on, which are destined for the use of the enterprise. The government is to make a free grant of public lands required and to expropriate private owners whose property may be required, the indemnity to be paid by Lord Murray. Defined royalties on the oil are to be paid to the government, these covering all taxes and imports, national and municipal.

## Monster Wheat Crop Assured

Production of wheat in the principal countries of the world is estimated to be 41 per cent. greater this year than last, the total production being estimated at 3,330,000,000 bushels, according to a cablegram to the Department of Agriculture from the International Institute of Agriculture at Rome.

The oats production, estimated at 3,426,000,000 bushels, is 5.9 per cent. less than last year; rye, 1,496,000,000 bushels, or 6.7 per cent. less; barley, 1,225,000,000 bushels, which is 1.2 per cent. more than last year.

The preliminary estimate of corn, which is given for the United States, European Russia, Spain, Italy, Hungary proper, Japan, Bulgaria, Switzerland, and Tunis, is 2,765,000,000 bushels, which is 2.24 per cent. less than was raised in those countries last year.

The rice crop of Japan is estimated at 16,662,000,000 pounds, an increase of 5.1 per cent. over last year.

## Interlocking Directories

Two of the largest public utility corporations in the world—the People's Gas, Light and Coke Company and the Commonwealth-Edison Company of Chicago, will be under the harmonious management of a largely interlocking board of directors as the result of action by the stockholders of the gas company in Chicago. An official statement explained that the arrangement is not by any means a merger. Sam Insull, President of the Commonwealth-Edison Company, Joseph A. Patten and John J. Mitchell, Directors of that corporation, merely becoming directors of the gas company.

## Indian Signs Currency

On the first inst. a new name appeared on United States currency issued that date when Gabe Parker appended his signature as Register of the Treasury vice J. C. Napier. The new register is a full blooded Choctaw Indian and the first Indian to hold the office. His predecessor was a negro.

LOVE MAKING  
RUINS HEALTH

Woman and Husband Want  
\$10,000 for Constandine's  
Persistence

Mrs. Gibbons Feared to Tell  
Husband Lest He Kill  
the Man

For weeks, Mrs. Owen G. Gibbons stood in terror of James H. Constandine because of his persistence in attempting to make love to her. So worried was she that her health was broken down. Because of this, Mrs. Gibbons and her husband have brought suit against Constandine for \$10,000.

In short in the above paragraph are the allegations in a complaint filed in the clerk's office by Attorney G. E. Banks of Los Angeles. The residence of the parties concerned is not given, further than that the acts alleged occurred on Gibbons' ranch in this county.

The complaint states that on Dec. 24, 1912, Constandine entered the Gibbons home in the absence of Gibbons, and attempted to kiss Mrs. Gibbons, and she fought him and got away from him. On Jan. 21, 1913, and frequently thereafter Constandine "sneaked" into the Gibbons house while Gibbons was at work in the fields, and there he persisted in making love to Mrs. Gibbons, who continued to repulse all advances.

Mrs. Gibbons was in terror of Constandine, yet she feared to tell her husband of the trouble because she knew that if she did he would kill Constandine, and she did not want any man's blood on her husband's hands.

By the time Constandine left the vicinity, Mrs. Gibbons was worried until she was ill, and her health was permanently broken.

Gibbons and his wife, Tabitha, are plaintiffs, and a judgment of \$10,000 is asked against Constandine.

**For Guardianship.** Mrs. Annie A. Johnson has asked for appointment as guardian of her step-daughter, Laura C. Johnson, aged 15. The petition, filed by Attorney F. C. Spencer, states that the girl's father, J. W. Johnson, has refused to care for her, that the girl works and cannot get along with her father.

**Another Election.** Another election will have to be held in the Placentia library district. It seems that the petition filed by the proposed district had an improper description in that the boundaries included a portion of the city of Fullerton. The election was held and the proposal was unanimous. In order to correct the boundaries a new election will be held.

**Decree is Given.** Today an interlocutory decree of divorce was given. Ethel M. Metz against Joseph O. Metz. Metz gets possession of the two sons, Raymond and Richard, and the mother of the daughter, Allen. H. C. Head was attorney for the plaintiff. The defendant did not appear.

**Suit On Note.** E. E. Keech is plaintiff in a suit against the Cashier Cash Register Co. and the Central Finance Co. on notes that aggregate \$865.62.

## IN THE JUSTICE COURT

SAYS MAN MADE  
THEM THIEVES

Three Boys Arrested for Theft,  
Arrested for Receiving Stolen  
Goods

If the officers are on the right track, things will go hard with Edward Arnaz of Westminster. He is charged with receiving stolen goods. The story told by one or two of the three boys who have been living at his house is that he made them go out at night and steal. They told a neighbor that if they returned home with less loot than Arnaz thought they ought to have, he proceeded to beat them.

The three boys, Eddie Arnaz and Willie and Flemmie Gibbons, are aged from 15 to 17. Arnaz and his Mexican wife live a half mile west of Westminster. For some time neighbors have been missing chickens, hay and other articles. Suspicion was turned toward the Arnaz family, and this morning Under Sheriff Law went out and brought the three boys and Arnaz into town. The boys were charged with stealing alfalfa hay from A. J. and Ross Fogler, and Arnaz with receiving stolen goods.

**Hay Stealing.** Last night five bales of hay were stolen from Will Deviney's ranch at Old Newport. Deviney tracked the wagon to St. Palma's house on the river. Constable Heard went out, and Palma told him that the hay was stolen by Manuel Perez. Perez has not been found, but Palma is in jail.

## Run Over By Auto

Fullerton News: Fortunately for John Sorsabal, a lad fourteen years old, that he was born lucky instead of wealthy. Last Saturday just as the dinner horn was to blow for noon, what might have been a serious accident happened at the corner of Anaheim and Spadra avenues, when an automobile, driven by a party from Los Angeles, struck John, who was riding a bicycle, knocked him down and run over him. Several eye witnesses rushed to the aid of the lad, placing him in an automobile and hurrying him to a hospital, when an examination showed that a few scratches about the head and one leg slightly cut, were the extent of his injuries, but none of the bruises was considered serious.

## TAKING TOLL OF BABIES

Each season of the year takes its toll of the babies, and to watch and safeguard them from common colds and coughs is a matter of importance to their parents. To keep Foley's Eczema and Itching Ointment in the house and use it promptly is to save the little ones from the serious effects of these colds, to ward off croup, bronchial coughs, hoarseness, stuffy, wheezy breathing and violent coughing spells. It is absolutely free of opiates and may be given to the little ones with no fear of harmful results. Refuse substitutes. Rowley Drug Co., White Cross Drug Co.—Advertisement.
